

THE JOY OF LEARNING ART

Floret. *The joy of learning Art*

Childhood is a period of maximum freedom when a kid is not limited by rules or social norms. When a child can act as he likes rather than as it is appropriate. When the world is opening to a kid, while the kid reveals to the world.

Every day the sparkling baby's energy is gaining momentum and needs to be released. Rich imagination results in unlimited flow of ideas and inspiration, hard to keep up with.

Several generations have grown with Nevskaya Palitra to become artists. That is why we created the Floret brand, addressing the children's need for self-expression.

Encourage the creativity of your kid by new sketch-books, pencils, chinks, brushes and colorful paints from a leader of art supplies, you can be sure of the quality and safety of our materials.

Support your kids together with Floret at the beginning of their creative journey, unlock their creative potential and enjoy the world's perception.

FLORET BRUSHES

Each brush handle length was developed in line with child physiology. A strong clip and a strong handle will protect the brush from falls, increasing its service life. Soft pile will provide comfortable drawing.
