

# CREATE YOUR OWN ART

*Decola.*

*Create your own Art*

We always look for ways to make the world around us a better place. We treat ourselves with beautiful things, fill our houses with cozy items, decorate the environment and put our hearts and souls in every aspect of our lives.

Representing bright and bold ideas of Nevskaya Palitra, the Decola brand is designed for those who create their own world. Whether you're a professional, skillfully implementing your ideas for others, or an amateur who wants to stand out, our wide range of art supplies gives you freedom to express yourself, hitting a chord with any creative person.

Decola will help you to unleash your imagination, turning everything you touch into a piece of art, whether it is decorating your home to make it unique or your hobby to infuse creativity into your life. Unleash your inner creator. Don't look for ready-made things. Instead, create your own ones.

## DECOLA ACRYLIC COLOURS UNIVERSAL

The all-purpose acrylic Decola paints are perfect for drawing on paper, canvas or wood. The palette of all-purpose acrylic paints includes 100 colors with various effects: gloss, matte, metallic, fluorescent, pearl, interfering colours.

- ▶ Light-resistant, weather-proof – the paints don't fade, change their color nor crack with time
- ▶ Quick to dry, after drying they form an elastic waterproof film;
- ▶ Easy to apply on any surface;
- ▶ The paints mix easily to make new pure shades and effects ;
- ▶ Used for decoupage and craquelure techniques.

## DECOLA ACRYLIC LINERS UNIVERSAL

The all-purpose acrylic Decola liners are designed for painting on any surface including wood, metal, plastic, leather or any other material. They can be used either on their own or in combination with the acrylic Decola paints. They are perfect for drawing fine details, letterings or creating additional effects on a surface. The liners are particularly popular for the dot technique. The liners are available in tubes with a pointed tip to easily apply the acrylic paint directly from the tube by pressing it slightly. The thickness of the line depends on the strength of pressing on the tube. The paint consistency and the tube tip prevent smudges during painting and help to create voluminous relief patterns, dots, strokes and other elements.

## DECOLA ACRYLIC COLOURS FOR TEXTILE

The acrylic Decola paints for painting for textile are designed for decorating fabrics by free painting using stencils and stamps.

- Decola paints are available in easy-to-use wide neck bottles;
- Thick consistency prevents the paint from flowing over the fabric and ensures that it is evenly distributed with a dense layer;
- The colors remain bright and vibrant and the paints do not wash out and fade with time;
- The jar lids in the sets have stickers indicating the paint color and type for your convenience.

## ADVICES PAINTING ON FABRIC

► Because each palette shade has its own coverage rate, the fabric color plays a key role in painting clothes. All shades will look bright and even on light fabrics. However, it's a good practice to use the white color for the first layer on dark fabrics. Once it has dried and the fabric has become light, apply color paints. Colors look well and bright on colorful fabrics, but remember that the fabric will be a little darker after application of paint. Therefore, mix colors in advance, making them a little lighter.

► After selecting and buying paints, test them on light and dark fabrics for your convenience. This will help you to understand the paint characteristics better and make it easier for you to work with them. It is best to apply one layer and two layers to see the difference.

► To prevent smudging, put a cardboard sheet in a file inside a t-shirt.

► Never dilute the paint with water, if not necessary. The paint is ready for use. You can apply it directly from its jar as it is. If you mix different colors, the resulting paint will also be of appropriate consistency. However, if the paint becomes thick, you can use a special-purpose thinner.

► There is no need to apply a thick and dense layer of paint. The paint will cover a fabric well, if you use a flat brush. The layer must not be thick, must contain no lumps or pools on a fabric.

► Let all paint layers dry completely, otherwise the pattern will be sticky.

► Never wash the item immediately after you've fixed the pattern on it! Wait for 3 days after iron fixation.

### ► MIXING COLORS

Beautiful colors in the picture not only look and feel good but also create the mood of the whole work in general! So take your time to study and practice mixing beautiful shades carefully.

## DECOLA ACRYLIC COLOURS FOR SILK

Batik silk painting originated in South-East Asia. Today hand-painted silk is one of the most popular materials used by leading fashion and interior designers. Batik technique helps both professionals and hobbyists create real masterpieces with their own hands. Shining and soft silk fabric makes the painting vibrant, fills it with light and shimmering colours.

- ▶ The paints are designed for the cold batik painting and free hand painting on various thin synthetic and natural fabrics;
- ▶ They can be easily applied with a brush, spread well and penetrate deeply into fabric fibers without thickening the material;
- ▶ They are quick-to-dry and fixed with a hot iron on the inner side of the fabric;
- ▶ The jar lids have stickers indicating the paint color and type for your convenience.

I use art materials of Nevskaya Palitra artistic paints plant since my childhood. Paints have always accompanied me during my education and development, helping me to realize ideas exactly as they were imagined. I am glad that assortment expands every year, new colors appear, new lines for decorative art come out – painting glass, textiles, silk.

## DECOLA ACRYLIC COLOURS FOR GLASS AND CERAMICS

The art of drawing images or patterns on glass or ceramics dates back centuries. However, after all these centuries of development of this art the basic painting techniques and practices remain almost the same. The most widely used are free painting, stencil painting, stamp painting and dot technique. Today these techniques use new state-of-the-art materials, among which are special-purpose acrylic paints and liners. With their help, one can easily create a beautiful and long-lasting décor on glass, ceramics, faience and porcelain as well as on various plastics. The glass and ceramics acrylic paints are easy-to-use. They need heat treatment (baking) to fix the result.

The glass and ceramics acrylic Decola paints are designed for painting glass, porcelain, ceramic or faience items. They can also be used for polystyrene, plexiglass and other types of plastic.

- ▶ The paints mix well with each other with the colors remaining pure in mixtures;
- ▶ Resistant to light;
- ▶ Resistant to water, fixation by baking is not required;
- ▶ The jar lids in the sets have stickers indicating the paint color and type for your convenience.

## DECOLA ACRYLIC COLOURS FOR FOR STAINED-GLASS

Stained glass is a technique used for decorating glass surfaces. Today, interior designers often use this technique to decorate glass partitions, glass inner doors, openings, closets, kitchenware and other glass items. In addition to its decorative function, stained glass is very practical, because they separate and divide spaces, while letting the light in.

You can create unique pictures using the stained glass technique. With modern materials, this technique can be used not only by experienced artists, but also by amateurs. With the translucent water-based Decola paints for stained glass, anyone can create a unique product.

The water-based acrylic paint is designed for painting on glass or glass items and creating the stained glass effect.

- ▶ The distinctive characteristic of these paints is their bright and rich color, which remains unchanged after drying;
- ▶ Our unique paint know-how prevents bubbles and cracks after drying. Stir the paint carefully in the bottle with a brush (don't shake it!) before applying;
- ▶ The paints mix well, creating other color shades;
- ▶ They are easy-to-use, can be easily and evenly applied to a surface with a brush, completely filling elements inside the outline;
- ▶ The jar lids in the sets have stickers indicating the paint color and type for your convenience.

# DECOLA MATERIALS FOR GILDING

Gold leaf sheets are used for decorating and gilding. They imitate the effect of natural precious and semi-precious materials (silver, gold, brass) on any surface.

## DECOLA METAL LEAF

- 14x14 cm, 25 sheets

Gold leaf sheets in a booklet have paper between them, which makes the work easier. An artist does not need a special gilder's tip to transfer a leaf to a working surface. Take a gold leaf together with a paper sheet, cut it with scissors if necessary and transfer to a working surface.

Code	Colour
2061291388	gold
2061291390	copper
2061291389	silver

## DECOLA METAL FLAKES

- 3g
- bottle

Gold flakes are used for classic gilding as well as for making jewelry and creating special effects, e.g. crackles (cracked effect), light and shade.

Code	Colour
206421739	gold
206421740	silver
206421741	mix (gold, silver, copper)

## DECOLA GLUE FOR GILDING

- 50 ml
- jar

The glue is used to fix gold leaf sheets on paper, cardboard, wood, plastic, glass, ceramic or metal items.

8628963

## DECOLA VARNISH FOR GILDING

- 50 ml
- jar

The varnish is used for finishing and applying a protective coating to a gilded surface. It adds gloss to the surface. It does not turn yellow after drying.

## DECOUPAGE AND AGING TECHNIQUES

### DECOLA GLUE FOR DECOUPAGE

- 50 ml
- jar

This glue is designed for decoupage and can be used to decorate hard surfaces, including wood, cardboard, plastic, glass or metal. It is based on water polyvinyl acetate dispersion and can be easily applied to a surface with a flat brush. It fixes the material securely and doesn't turn yellow after drying.

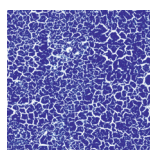

8628932

### DECOLA CRAQUELURE VARNISH

- 50 ml
- jar

The varnish is water based and designed to decorate and age surfaces by creating a cracked surface. The craquelure varnish is easy to use and suitable for different types of surfaces (wood, cardboard, leather, canvas, glass).

8628933

### DECOLA DECOUPAGE GLUE FOR TEXTILE

- 50 ml
- jar

It is used for decoupage with natural fabrics using tissue and rice paper. The glue composition takes into account special aspects of the fabric decoupage. This glue is perfect for flexible and porous fabrics, ensuring high quality and durability of décor. The decoupage glue is fully transparent and doesn't thicken the fabric structure.

9541253

### DECOLA ACRYLIC COLOURS SET FOR DECORATION «CRAQUELURE AND DECOUPAGE»

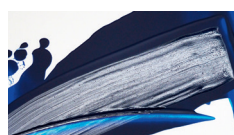

- cardboard box
- 4 colours in 20 ml jars (104, 213, 331, 517)
- craquelure varnish in 20 ml jars
- glue in plastic jar 20 ml

9541254

## DECOLA ACRYLIC VARNISH

The acrylic varnish is used for finishing artworks created by different decoration techniques: decoupage, painting, craquelure, stencil or freehand painting. Applying the varnish to a surface creates a durable clear film which cannot be washed off with water. The varnish helps fix the upper decorative layer, finishing artworks. It protects artworks from any adverse environmental conditions and makes them more resistant to mechanical stress or wear. Quick to dry. Available in 50 ml bottles.

## DECOLA GLITTER POWDER

Glitters are metallic particles of different sizes and shapes, painted in all sorts of colors. Glitters are manually kneaded into varnishes, glues or other binders. With the help of the resulting mixtures, you can create interesting effects on various surfaces and give them an incredible shine. Available in 20 g packaging.

## DECOLA SYNTHETIC BRUSHES

Medium-hard brushes made from high-quality synthetic materials are highly flexible and elastic. They are versatile and can be used for gouache, oil and acrylic. Medium-hard bristles ensure careful work on a surface whichever technique is used, while thick bristles help hold an ample amount of paint or varnish. The brush ferrule is chrome-plated metal. The brushes have a short varnish-treated handle, painted "dark copper".
